Dear reader,

in cooperation with Alfred Herrhausen Gesellschaft, we award six fellowships to young European educators in 2022 as part of our Educational Network Understanding Europe.

The "Thinking of Europe" fellowship is a paid programme which is targeted at young educators between the ages of 18-27 who already have first experience in educational work and are interested in exploring topics related to social justice, the climate crisis or digitalisation in Europe.

Over a period of six months (March to August 2022), the fellows will develop their own 45- to 90-minute workshops on those topics for students aged 13 and above. Introducing the new workshops in classrooms, the programme seeks to strengthen the democratic competences of students and young adults. The fellows will be supported by mentors and experts and will take part in accompanying seminars.

Apply now: You can find more information on the programme and the application form here. The application period ends on January 31, 2022

We are looking forward to receiving your application and getting to know you!
